caring supporting improving together

1. Message from the Chief Executive

It gives me great pleasure to present to you our Corporate Plan 2016/17. Within this document we have set clear and challenging targets for this year.

We will continuously focus on improving the safety, effectiveness and compassion with which our services are delivered. We will invest and build further capacity and capability in Quality Improvement as a fundamental business process - it will become how we do things. I want to see a real and unrelenting focus on bringing down waiting times for elective care to meet the needs of our patients; I want us to further enhance community services and to strengthen access for clients; we will implement our Organisational Development OD Framework; grasp the opportunities innovative community planning affords us; really ramp up focus on the E-health agenda; and push on with the real and lasting improvements we have seen in unscheduled care.

I wish also to set out a clear roadmap for the future of our four hospital sites with each having a clearly defined functional role. None of these objectives are at odds with the proposed changes to our wider system, they chime with the Bengoa principles. They are consistent with the introduction of a wide and far-reaching OD Framework. Everything we are doing or plan to do reflects on our ability to meet these core strategic objectives for 2016/17.

This document commits us to embark with renewed vigour to make these priorities a reality. As Chief Executive I will support, enable, and encourage progress in each of these areas in the year ahead.

Dr Michael McBride, Chief Executive
