The Winter Vaccination programme is now available for staff.

The Flu and Covid-19 booster vaccination will be held in the Vaccination Centre at the Royal Victoria Hospital and will open seven days a week from 08.30 to 17.30.

There will be three options available:

- Flu Vaccination only
- Flu and Covid -19 Booster (at the same time)
- Covid-19 Booster only

Vaccines are the best way to boost your immunity. It's easy for us to pass on flu viruses or Covid-19 without knowing. This winter it is even more important to protect yourself, your family, colleagues, patients and service users.

FLU VACCINE

As with previous years, all staff are encouraged to have their annual flu vaccination. You can also receive a free flu vaccine, as part of the national flu immunisation programme, at [participating community pharmacies](#) across Northern Ireland.

COVID-19 BOOSTER

We would encourage all staff who are:

- Over 50 years of age
- A minimum of 6 months from their second dose

to get their COVID-19 booster vaccination at the Royal Victoria Hospital Vaccination Centre. Staff are advised to select 'yes' to question 3 on the booking system to confirm eligibility.*

*This is a temporary, work-around measure until the vaccination management system is updated.

HOW TO BOOK

When using the online booking system it will be mandatory for you to provide your staff number. This can be found on your payslip/HRPTS. If you do not know or are unable to access your staff number please speak to your supervisor/line manager. Any staff who do not have access to IT equipment can ask their manager to book on their behalf.

When you attend for your vaccine you must produce Trust staff identification, otherwise you will not be able to receive your vaccine.

The Regional Booking system does not work on Internet Explorer. Please use another browser such as Edge (if accessing in the workplace), Chrome or Firefox to access the booking system.

PLEASE BE PATIENT

The Regional Booking System is currently experiencing high demand. Please be patient and complete the booking process correctly.

Do not attend the Vaccination Centre without confirmation of your vaccine appointment. If you do not receive confirmation, please try again.
