24 July 2020

UV Aware Module

Be UV Aware

The UV index shows us how strong the sun's UV rays are

When the index is 3 or more, protect your skin and eyes

www.careinthesun.org/uv

Cancer Focus is piloting a UV Aware e-learning module with workplaces over the summer. The UV Index tells you on a daily basis what the UV levels are and when sun protection measures are required. This is of particular relevance to staff who spend a lot of time outdoors, to anyone who coordinates outdoor activities for groups or individuals or in the course of their work may discuss skin care with clients.

The course is available at <https://training.cancerfocusni.org/course/view.php?id=27>

Staff members will need to register for the course by completing an individual account on Cancer Focus Northern Ireland's e-learning platform. The course is in 3 sections, each section taking approximately 30minutes to complete but there are no restrictions on the length of time or number of sessions it takes for participants to complete.

The pilot will run until the end of August and user feedback will be requested via a short questionnaire sent via email to each participant.

Blood Donation

GIVE BLOOD Save Lives

MON 27 JULY	Belfast	NIBTS Headquarters	9.45am – 8pm
