

A diagnosis of COVID-19 can be stressful for both care givers and patients. The Trust has set up virtual Covid-19 wards for patients who can be safely discharged,

The VCH is comprised of a team of specialist doctors, nurses and allied health professionals who have experience with patients diagnosed with COVID19. We will telephone you on regular occasions and monitor how you are feeling, what your oxygen levels are and check if you have any concerns. You will be admitted to the VCH for 14 days. If the team feel you need any further follow up we can arrange that for you. [Read more](#) or you can learn more about the service with the [short film](#). Download the [referral form](#)
