 INTERNATIONAL ADOLESCENT HEALTH WEEK

The Royal Victoria Hospital Emergency Department have launched a new website to help support young people with a wide range of issues they might be experiencing, including mental health, drugs and alcohol, problems at home and bullying.

It is hoped that the website will offer young people the options of accessing support services in their home and community before they reach a crisis point. The site launched a week ago and is already very successful.

[Watch the video](#) by clicking the image above to find out more about how the website was developed and how it hopes to help. You can access the website at: www.youngpeopleni.org.

Designing and Delivering Online Training

In an increasingly digital world many of us are required to deliver our training courses and workshops online. The aim of this course is to support you in designing and delivering an engaging online facilitator led session, as well as transforming existing and traditional face to face training into an online format.
