Attitudes and Behaviour towards Covid-19 vaccination survey

The Public Health Agency would like to find out about your views and experience of the COVID-19 vaccination programme. This will help us determine if the roll out of the vaccination programme among HSC staff is working well or identify any barriers that may prevent people from having the vaccine.

The service is open to all staff within the HSC Trusts in Northern Ireland.

We would really appreciate you taking the time to participate in this survey. It should take no longer than 5-10 minutes to complete. To take part please click the link below:
