

Funding re Feile an Phobail tickets

Feile an Phobail worked in conjunction with the Belfast Trust to help with their vaccination rollout campaign by supplying 500 free tickets to the first 500 people who came to receive their vaccine.

- 1. Did the Belfast Trust fund this initiative?**
- 2. If so, how much did it cost the trust?**
- 3. Who paid for the 500 tickets and at what cost?**

Response:

Belfast Health and Social Care Trust did not purchase the tickets from Feile an Phobail.

This initiative was the idea of Feile an Phobail. Belfast Trust agreed to have a mobile vaccination team at the event to vaccinate the young people who presented for vaccination. This was in line with the Department of Health vaccination programme in bringing vaccinations close to where young people will be.
