Expenditure on Specimen Collections Materials used in Fertility Clinics

Question 1

How much was spent in the 2020-2021 on materials used to facilitate masturbation in your fertility clinics, this specifically includes pornographic magazines.

If the information is available, please specify which pornographic magazines which were purchased for this purpose.

Response:

Pornographic magazines are no longer supplied for patients due to the risk of cross infection. Instead, a TV with an inbuilt DVD player is in place in each of the male rooms. One TV with inbuilt DVD player was purchased in 2020 costing £205. The DVDs in use were supplied with magazines in earlier years so there was no need to purchase any in 2020 or 2021.
