Incidence and Treatment of Clotting Disorders (Von Willebrand Disease and Haemophilia B)

Could you please answer the following questions related to the incidence and treatment of clotting disorders:

1. **How many patients are registered with your Haemophilia Centre for:**
 - **Von Willebrand Disease – adult patients (age 18 or above)**
 - **Von Willebrand Disease – paediatric patients (age 17 or under)**
 - **Haemophilia B (any age)**

2. **How many patients required prophylactic or on-demand treatment in the last 3 months for:**
 - **Von Willebrand Disease**
 - **Haemophilia B**

To obtain this information you should redirect your enquiry to the National Haemophilia Database, which retains all this information and has a dedicated team to support your query.
