## **Junior Doctor/Trainee Rotas – Software and Contract Information**

- 1. Does your organisation use any third-party software to support the creation of junior doctor/trainee rotas? If yes, please state the name of the supplier.**

**For clarity, a rota is a pattern of shift work with no individuals attached to it. A rota is used to form a blueprint of compliance or rules based on working patterns for a department, team or unit e.g. to create junior/trainee doctor rotas compliant to the 2016 Junior Doctor contract. Rotas are not to be confused with rosters (when shifts are allocated to workers.**
