## Belfast Trust Printing Devices (Infrastructure Hardware)

We are currently updating data on your Trust's printing devices (infrastructure hardware) and would appreciate your help. Can you please complete the fields below with what you currently hold?

### Definitions

**MFD Printers - A Multi-Function Device (MFD) is a machine that can print, copy and scan. These devices have faster print speeds and allow additional functionality such as scan to email. Secure print and follow-me printing are two of the key features of the new devices.**
