Stress-related illnesses since January 2021

Enquiry:

How many staff involved in your PFI contracts have taken leave for stress-related illnesses since January 2021?

Response:

PHT (PFI Project Co) and Medipass (MES) employee contracts and health records are held by the individual private companies and not by Belfast Trust.

For machine maintenance Medipass holds service agreements with the Original Equipment Manufacturers (OEMs). Medipass does not contract with individual engineers. OEMs are also private companies and hold their own employee health records.

The information requested is not held by Belfast Trust.
