## **Cost of an Eye Casualty Appointment in the Royal Hospital, Belfast – Follow-up Response**

**Follow-up Query re response to FOI/28093 dated 7 October 2022 - The cost of an eye casualty attendance in the Royal was £82 in 2019/20, which is the last financial year that costs were reviewed.**

**Could you tell me when you would have a more up to date figure? The clinic structure has radically changed in Eye Casualty since COVID so the 19/20 figure is obsolete.**

Due to Covid-19 the first revised set of costs will be produced for the 2022/23 financial year. These will be available in the autumn of 2023.
