

21 December 2022

## **Hospital Discharge and Care Packages**

**Between January 2022 to the most recent date for which data is available, how many people who required a community care package were discharged from hospitals in the Belfast Health and Social Care Trust without a (i) full or (ii) partial package in place?**

Belfast Trust can confirm that from January 2022 and December 2022, 2,662 people have been discharged from Belfast hospitals with a care package in place.

Unfortunately we are unable to break this down between full and partial care packages.
