Major Haemorrhaging in Hospital Protocols – Update to guidelines

The guidelines listed below were supplied in your FOI response 26442 received on the 3/8/2022.

Please could you confirm whether or not these guidelines are still in use and if they have been updated since the initial request. If they have been updated please could an updated copy be supplied.

If any new protocols for the management of major haemorrhage, the rapid identification of patients taking anticoagulants and the reversal of anticoagulation agents have been published since our initial request please could a copy be supplied.

The return from us initially was in March 2022 and the new anti-coagulation policy came into place in April 2022 and is attached.

VB Doc ID	Document	Publication Date	Review Date	Is this document still valid? (Yes/No)	Has this document been updated since 3/8/2022? (Yes/No)*
7280	BELFAST - Massive Transfusion Policy	01/08/20	August 2025	Yes	No
	Emergency Reversal of anticoagulants BHSCT/SSS/CSM (06) 2022 replaced <ul style="list-style-type: none"> • Safe Warfarin Management Guidelines • A Practical guide for the acute management of haemorrhage, emergency surgery and overdose in patients receiving rivaroxaban, apixaban and edoxaban • A Practical guide for the acute management of haemorrhage, emergency surgery and overdose in patients receiving Dabigatran 	April 2022	April 2027
