

## **REGIONAL DISABLEMENT SERVICES**

### **REGIONAL WHEELCHAIR AND AMPUTEE REHABILITATION SERVICES**

#### **Mission Statement:**

In addition to Belfast Health & Social Care Trust, we in Regional Disablement Services, and in particular, the Regional Wheelchair and Prosthetic Services have developed our own Mission Statement. This is representative to the needs of our local population and other customers of our service. The Mission Statement reflects the Regional Disablement Services philosophy and compliments the Trust initiatives.

#### **Philosophy of Care:**

The purpose of the Regional Disablement Services is to provide, by a continual commitment to quality improvement, a service that meets the needs of those people with a disability, in a caring and professional manner. We wish to ensure that every patient who receives treatment at Regional Disablement Services experiences a positive and caring service that is appropriate to their needs. The environment in which this care takes place should be pleasant and supportive.

#### **Our Aims:**

To deliver inpatient and outpatient services equally across all client groups and geographical areas. Services should be accessible to all.
