Job Evaluation scores/weightings for: Band 6 Information Governance and Records Manager

Request

Is it possible I obtain a freedom of information request to provide the Job Evaluation scores/weightings for the post of *Band 6 Information Governance and Records Manager* (see attached)

Response

The Information Governance and Records Manager job description was based on an existing role within Belfast HSC Trust. As part of the Job Evaluation process only brand new posts are required to go through the job match process. If a job description is already in existence the new job description will be clustered to the original job matched report. Please find attached a copy of the original job matched report which includes scores and weightings.
