Dr's or other medical staff referred to their regulators regards neurology and neurosurgery service since September 22

I would like to know under the Freedom of Information, has there been any Dr's or other medical staff referred to their regulators regards neurology and neurosurgery service since September 22?

The General Medical Council (GMC) is the Regulator for all doctors in the United Kingdom. The Belfast Trust has itself not referred any doctors to the GMC in relation to Neurology or Neurosurgery since September 2022.

The GMC would be best-placed to advise on whether referrals have been received from other sources since September 2022.
