## **Orthopaedic Outpatients Clinic Musgrave Park Hospital**

**I would request information regarding the following:**

- 1. Are all patients under the care of the Orthopaedic Outpatients Clinic at Musgrave Park Hospital awaiting treatment all on the same list or are there separate lists for the different parts of the body, e.g. a list for knee, a separate list for backs etc., or everyone on the same?**

Patients are not all on the same waiting list. Patients are on waiting lists with consultants based on body part sub-specialties.

- 2. How many patients diagnosed as needing surgery since August 2020, and being categorised as urgent, have had their surgery?**

5911

- 3. Since a letter was sent out in January asking if patients would be prepared to have their operation in another NHS Hospital, a private Hospital or go to Dublin for it, how many patients have had their surgeries carried out this way since then?**
