Treatment of Hidradenitis Suppurativa (HS)

I am trying to understand current practice in the treatment of Hidradenitis Suppurativa (HS). Could you please tell me how many patients were treated in the last 3 months for Hidradenitis Suppurativa (HS) with the following biologic drugs?

Adalimumab – Humira	20
Adalimumab Biosimilar	24
Bimekizumab	<5
Certolizumab	<5
Infliximab – Remicade	<5
Infliximab Biosimilar	6
Secukinumab	<5
Ustekinumab	<5

Use of <5 (less than five): We are unable to provide an exact figure - exempt from release under Section 40(2) of the Freedom of Information Act as this could make patients personally identifiable. Disclosure would constitute a breach of the principles of the General Data Protection Regulation 2018.
