Birth Registry Information

I am wondering if there is any possible way that this data that was sent to me (29277) could be sent back in an aggregated format by geographical location and month (rather than just month and year?).

And number of problems in labour (in total) by geographical location and month? (Rather than a specific breakdown of conditions).

Belfast Trust cannot provide a further breakdown of the data as this could make persons personally identifiable. This information is exempt from release under section 40(2) of the FOI Act - as this could make patients personally identifiable. Disclosure would constitute a breach of the principles of the General Data Protection Regulations 2018.

Maternity advise the Honest Broker Service [Honest Broker Service \(hscni.net\)](https://www.hscni.net) may be able to help further.
