

Can you please provide an update on the following 4 questions regarding your Trust's Infrastructure?

1. For each element of IT infrastructure below, please provide the requested details:

Desktop management
Networking
Data Centre
Server management
IT Security
Email and collaboration
Processing and computer capacity

2. For each of the elements below, please provide details about your cloud provider:

Data storage
Networking
Back-up and archive
Application databases

Big Data analytics databases
Email and collaboration
Processing and computer capacity

3: For each element detailed below, how does your organisation manage its data storage?

In-house data centre
DEFINITION: Physical or virtual servers that are connected internally and externally through networking and communication equipment to store, transfer and access digital information
Shared service
DEFINITION: The consolidation of business operations that are used by multiple parts of the same organization.
Data Storage Management
DEFINITION: The management of various data storage methods used in the Trust
Other (please specify)

4: For each of the network supply systems listed below, please provide the requested details:

Data network (broadband)

DEFINITION: Broadband is the actual internet connection afforded by your internet service provider (ISP), which you can access directly via a LAN or ethernet connection between your modem and device

WiFi (hardware)

DEFINITION: Wifi is a wireless connection between multiple devices and your router, and just one of the ways you can access the internet

CoIN (if applicable) - Community of Interest Network
--

WAN (Wide Area Network)

DEFINITION: WANs connect users and applications in geographically dispersed locations

Other (please specify)
