Given the extent of the Priory facilities and that they are not all in our trust area and not all on an electronic system this would take longer than the 18 hours. This would exceed the costs limit specified in the FOI act.

We estimate that compliance with this element of the request for information would exceed the appropriate costs limit. Under Section 12 of the Freedom of Information 2000, the limit has been specified as £450 and represents the estimated cost of one or more persons spending 18 hours in determining whether we hold the information, locating, retrieving and extracting this information.
