## **Compensation Claims Concerning the Neurological Recall**

**I am writing for a Freedom of Information from the BHSCT as to how many compensation claims in regards to the neurological recall regards Michael Watt and how many compensation claims have been settled and also if there are any plans by the BHSCT to introduce a redress scheme for patients injured/ wrongly diagnosed .**

- As of 19 November 2024, there have been 509 claims received by the Belfast Trust. These relate to the treatment and care, as a former patient, of Dr Michael Watt.
- Belfast Trust is unable to respond as to how many additional claims may have been served solely against Dr Watt.
- The number of claims closed and/or settled by Belfast Trust as at 19 November 2024 is 155.
- There are no plans to introduce a redress scheme.
