## Treatment of Endometrial Cancer

1. Does your Trust provide SACT (Systemic Anti-Cancer Therapy) treatments for endometrial cancer? If not, which other Trust do you refer endometrial cancer patients to for SACT treatments?

Belfast Health and Social Care Trust does provide SACT treatments.

2. How many patients were treated for endometrial cancer (any stage) in the past three months with the following treatments:

- Dostarlimab (Jemperli) <5
- Dostarlimab (Jemperli) AND Chemotherapy <5
- Hormone therapy (Progesterone or Letrozole) <5
- Pembrolizumab (Keytruda) monotherapy <5
- Lenvatinib + Pembrolizumab (Lenvima +Keytruda) <5
- Platinum-based chemotherapy (monotherapy or combination with taxanes, anthracyclines, cyclophosphamide):
 

Carboplatin	7
Carboplatin+Paclitaxel	15
Paclitaxel	5
- Any other SACT <5
- Any other Chemotherapy <5

**Use of <5 (less than five):** We are unable to provide an exact figure - exempt from release under Section 40(2) of the Freedom of Information Act, as the small numbers involved could make patients personally identifiable. Disclosure would constitute a breach of the principles of the General Data Protection Regulation 2018.

3. In the past three months, how many patients were treated for recurrent endometrial cancer after having previously received platinum-based chemotherapy?

This information is not held on the Regional Information System for Oncology and Haematology (RISOH) and therefore we are unable to answer this question.
