Disclosure Meetings for Misread Smear Tests

Under the Freedom of Information Act 2000 could I please have details of the number of women who have had disclosure meetings regarding misread smear tests within the Belfast Health and Social Care Trust area for the years 2018 to 2024 (both of these years to be included).

The Belfast Trust based Cervical Cytology Team have been involved in one disclosure meeting in 2021 relating to a cancer diagnosed in 2019.

There have been two disclosure meetings in 2023 related to cases diagnosed the same year.
