Contracts with Nursing and Residential Care Homes

I am writing to request the following information under the Freedom of Information Act.

The value of the Trust's contracts with nursing or residential care homes that did not go through a procurement process during the last 5 years, broken down by care home.

All placements made by Belfast Health and Social Care Trust are governed by the extant Regional Residential and Nursing Homes Contract and Service Specification.

Each placement is made on an individual basis, dependant on the home's ability to meet the assessed needs of the client, in keeping with their registration, client choice and bed availability.

There is work ongoing regionally; led by the Department of Health, to review the extant Regional Residential and Nursing Homes Contract and all Trusts are participating in this review.

This will then inform how these contracts may be procured in future.

Belfast Trust paid a total of £648 million over the last five financial years (2019/20 to 2023/24) to residential and nursing care homes that we had clients placed in.

This includes COVID-19 funding and care home grants made under the direction of the Department of Health.

A list of all 288 individual homes paid is provided below.
