Oncology MF + SCT

1. How many patients were initiated on Ruxolitinib (Jakavi) in the past 6 months for the following conditions? (Patients are classed as initiated if they have not received any of the below treatments in the previous 6 months).

- Myelofibrosis (ICD-10 code: D47.4)
- Polycythaemia Vera (ICD-10 code: D45)
- Graft vs Host Disease (GvHD) (ICD-10 code: T86.0 or D89.8) (SNOMED Code: SCTID: 234646005)

N.B. Section 12: Fees Limit – 18 hours. Unfortunately we can only answer limited questions as we do not have electronic prescribing across this service, therefore a manual trawl of patients records would be required which would take more than 18 hours to complete. We estimate that compliance with this request for information would exceed the appropriate costs limit. Under Section 12 of the Freedom of Information 2000, the limit has been specified as £450 and represents the estimated cost of one or more persons spending 18 hours in determining whether we hold the information, locating, retrieving and extracting this information.

2. How many patients were initiated on the following regimens for any condition in the past 6 months? (Patients are classed as initiated if they have not received any of the below treatments in the previous 6 months).
