Histopathology

1. Tariffs for Histopathology Services:

Please provide the current tariffs or payment rates associated with Histopathology services, including any variations by type of service provided (e.g., biopsy reporting, specimen analysis, etc.).

Please see Appendix one.

2. Payment Structure:

How are hospitals compensated for conducting Histopathology services? I would like details on the payment processes and any contractual agreements with external service providers.

PART 1

In Northern Ireland, hospitals are compensated for conducting histopathology services primarily through funding allocated by the Department of Health (DoH) and managed within the broader Health and Social Care (HSC) system. These services are commissioned by the Strategic Planning and Performance Group (SPPG). There are a number of methods for funding;

Department of Health Budget Allocations

The DoH sets annual budgets for each Health and Social Care Trusts based on projected service needs, cost-saving measures, and strategic priorities. The 2024/25 budget assessment outlines how funding is distributed across services, including pathology. Trusts submit input on expected impacts and service demands, which influence budget decisions.

Commissioning and Service Agreements

Histopathology services are typically commissioned by the SPPG or Public Health Agency (PHA) through Service-Level Agreements (SLAs). These agreements define the scope, volume, and quality standards of services to be delivered, and funding is allocated accordingly.

Performance and Activity-Based Funding

Some elements of funding may be activity-based, meaning Trusts receive compensation based on the volume and complexity of histopathology cases processed. This incentivises efficiency and quality in service delivery.

PART 2

Contractual agreements with external service providers

27 August 2025

In Northern Ireland, contractual agreements with external service providers, such as those for histopathology services; are managed centrally through the Procurement and Logistics Service (PaLS), which operates under the Business Services Organisation (BSO). PaLS has a number of roles;

Role of PaLS

PaLS is the sole provider of professional procurement and logistics services for all Health and Social Care (HSC) organisations in Northern Ireland. It is Centre of Procurement Expertise (CoPE), meaning it adheres to strict standards under the Northern Ireland Public Procurement Policy.

Contractual Setup Process

HSC Trusts or departments identify a need for external services. Detailed service specifications are created, including clinical standards, turnaround times, and quality assurance requirements. Tendering via eTendersNI: PaLS publishes tenders on eTendersNI, inviting qualified providers to bid. This ensures transparency and competitiveness. Bids are evaluated based on criteria such as cost, quality, compliance, and capacity. Contracts are awarded to the most economically advantageous tender (MEAT). PaLS manages around 3,200 contracts across HSC, ensuring compliance, performance monitoring, and value for money.

Legal and Regulatory Framework

Contracts must comply with the Public Contract Regulations 2015, especially for agreements above designated monetary thresholds. Joint procurement may occur across multiple Trusts, coordinated by PaLS as a central purchasing body.

Support and Oversight

PaLS also provides localised support to HSC organisations, offering guidance on procurement strategy, contract management, and financial accountability.

3. Contact Details of Relevant Personnel:

Please provide the contact details (name, phone number, and email address) of the following personnel at your hospital:

- **Service Managers overseeing Histopathology services:**
Shauna McAuley
Cellular Pathology Service Manager
07850542086
shauna.mcauley@belfasttrust.hscni.net
- **NHS Improvement Managers:** Role not present within Cellular Pathology.
- **Digital Implementation Managers:** Role not present within Cellular Pathology.
- **Clinical Leads in Histopathology or related Pathology fields:**
Dr Clinton Boyd

27 August 2025

Clinical Director
 02896155981
Clinton.boyd@belfasttrust.hscni.net
 Dr Maurice Loughrey
 Service Improvement Lead
maurice.loughrey@belfasttrust.hscni.net
 Dr Estelle Healy
 Neuropathology Consultant
 07779255420
Estelle.Healy@belfasttrust.hscni.net
 Dr Brian Herron
 Neuropathology Consultant
 07801866678
brian.herron@belfasttrust.hscni.net

- 4. Total Spend on Histopathology Services:**
 Over the last 5 years, what was the total expenditure on Histopathology services by the hospital and the Trust? This should include expenses related to consultants, secretarial staff, administrative staff, and scanning staff.

Histopathology Spend				
2020-21	2021-22	2022-23	2023-24	2024-25
£11,160,537	£10,731,587	£11,932,541	£10,877,506	£12,807,278
*Total Costs excluding Cytology & Mortuary				

- 5. Insourcing/Outsourcing Spend:**
 In the last 5 years, was there any spending on insourcing or outsourcing of Histopathology services to assist with clearing scans and samples? Please provide details of the total yearly expenditure for these services.

2020-21	2021-22	2022-23	2023-24	2024-25
£2,755	£281,140	£450,351	£315,161	£237,317

- 6. Managers in Charge of AI and Digital Pathology:**
 Who are the appropriate managers responsible for implementing AI and digital pathology within the hospital/trust?

Role does not sit within the Trust, AI and digital pathology is overseen by a number of regional bodies.
