Data on Pompe Disease

I would like to submit a Freedom of Information (FOI) request for the following data for Belfast Health and Social Care Trust relating to **Pompe disease** for the period **1 January 2025 to 30 June 2025**.

For reference, Pompe disease may be coded under:

- **ICD-10:** E74.0 (Glycogen storage disease), or more specifically noted as Acid Maltase Deficiency / Pompe disease
- **SNOMED CT Concept ID:** 86651009 – *Glycogen storage disease type II (Pompe disease)*

If exact matches are unavailable, please provide the nearest equivalent coding used by your Trust and specify the codes applied.

Table 1 – Patients Treated and Diagnosed (Jan–Jun 2025)

Table 2 – Patients Treated and Volume Used (Jan–Jun 2025)

Table 3 – New Patients Treated by Product (Jan–Mar 2025)

Table 4 – New Patients Treated by Product (Apr–Jun 2025)

Table 5 – Segmentation of Infantile- and Late-Onset Patients (Jan–Jun 2025)

Table 6 – Severity by Age Group (Jan–Jun 2025)

Belfast Health and Social Care Trust has no patients diagnosed with or being treated for Pompe disease.
