*We have no way of determining from our system whether these are NHS or privately funded patients.

**The Access to Healthcare Team have confirmed that the systems they use for Private Patient activity cannot be interrogated by the type of treatment the service user received and therefore we are unable to respond without manual scrutiny of each record which would take us over the 18 hours. Section 12 of the Freedom of Information Act makes provision for public authorities to refuse requests for information where the cost of dealing with them would exceed the appropriate limit which has been set out as 18 hours.
