Car Parking Application Process – Breakdown of Medical Staff Job Titles who work 24 Hour On-Call

Following on from previous requests: FOI/35268 and FOI/35529

Who are the Medical staff that work a 24 hour on call? Are they working outside of AFG rules? Was this criteria set up for doctor/dentist only and ruled out the majority of staff working within the RVH? I am asking directly for a breakdown of the medical staff job titles that work 24/7 on call and got car parking approved because this was one of the criteria's they met.

In the recently paused RVH car parking permit application process, 360 Trust Staff who selected the 24/7 on call criteria received a successful outcome (with some of those staff meeting more than one of the priority criteria).

Out of the 360 staff who selected the 24/7 on call criteria, 232 staff indicated 'Consultant' as their job role within their application.
