Dermatology Treatments New Patients

How many new patients were treated for any condition by the Trust's Dermatology Department in the latest 3-month period of October, November and December 2025 (or the latest 3 months available) with the treatments I have provided below?

If you can, could you please provide the split of new patients who received their treatment for Psoriasis.

Please can you define a "new patient" as a patient who is receiving any of the treatments listed below for the first time. If a patient received any of the below treatments in 2024 or previous years, they can be classed as a new patient for this period.
