People Report

Background (Maximum of 1500 characters)

This report is intended to provide the Board with an overview of key People metrics across the Trust for the second quarter of 2025/2026. It draws on information provided by both Corporate and Service Directorates, as well as input from professional leads, to ensure a robust and organisation-wide perspective.

The content of the report reflects feedback and learning from the Quarter One submission and represents a further step in the development of People reporting. It is anticipated that the report will continue to evolve over future quarters to align with the revised Trust assurance framework and organisational structure, supporting improved oversight, assurance, and informed decision-making by the Board.
