

## AREDS Template

Your images show changes in keeping in early macular degeneration. No treatment is needed. Please see below for recommendations.

Plan:

1. Letter to @NAME@
2. Diagnosis early macular degeneration changes
3. Recommend yearly review by community optometrist
4. To report and changes in vision especially distortion
5. Vitamin supplements - **AREDS2** formula may help reduce progression of changes - these can be bought at pharmacies, health stores or on-line.
