**Title of paper (Maximum of 300 characters)**

Trust System Oversight Measures Report - January 2026 including areas of escalation under the Support and Intervention Framework (SIAF).

**Background (Maximum of 1500 characters)**

The System Oversight Measures (SOMs) Report is attached for information & assurance.

The Report to the Trust Board provides a summary of the Trust performance against key SOMs targets to end of January 2026. The Report also includes data related to patient experience and a summary of those areas which have been escalated by the Trust at Levels 1-5 under the Department of Health's Support and Intervention Framework (SIAF).

The SDP has now been replaced by the Strategic Outcomes Framework (SOF) which sets out the long-term direction to the system and the System Oversight Measures (SOMs) which convey the shorter-term priorities.

It was envisaged that monitoring and reporting of the SOF/SOMs would be effective from 1 April 2025. However, most reports for the SOMs built regionally on encompass became available on the 7th July 2025, with others to be developed for reporting at quarter 3 and 4.

As there are no agreed baselines for levels of activity to be delivered within the SOMs framework, an activity summary for outpatient attendances, Elective admissions & daycases, AHP & diagnostics services is now included comparing to same month previous year. This is provided from October - January.
