Medicine Costs (adalimumab)

Can I please request under the freedom of information act the following at molecule level for adalimumab 40 mg (standard fortnightly dosing):

- 1. The average annual cost per patient to the Trust for adalimumab treatment.**

This may vary depending on the brand used and can range from approximately £1000.00 per year to approximately £4000.00 per year.

- 2. If average cost cannot be disclosed, please provide the lowest annual cost available to the Trust for adalimumab treatment regardless of brand.**

Approximately £1000.00 per year.

If exact figures remain commercially sensitive, please provide the cost

As above

This request relates to the overall cost of adalimumab treatment rather than the commercial terms of any individual supplier or brand, and may include treatment supplied through a homecare / direct-to-patient delivery model.
