Belfast Trust owns an additional 28 properties. However, Belfast Trust has not disclosed the names and addresses of these properties because they relate to children's homes, supported accommodation, or residential care settings.

The home addresses of individuals would constitute personal data relating to third parties, as disclosure of property locations has the potential to identify, or make identifiable, individuals receiving services from the Trust. This is particularly the case where properties accommodate vulnerable client groups. The information is therefore exempt under Section 40(2) of the Freedom of Information Act - Personal Information relating to a third party.

Disclosure would constitute a breach of the principles of the General Data Protection Regulation 2018.

10 April 2026

Disclosure of this information is also exempt under Section 38 – Health & Safety, which states that information is exempt if its disclosure would, or would be likely to, lead to the physical or mental harm of or endanger the safety of individuals. Disclosure of property locations could facilitate access to vulnerable individuals and increase the risk of criminal, predatory, or exploitative activity, including targeted harm.

Section 38 is a Qualified Exemption and is therefore subject to a Public Interest Test (PIT).

I can confirm that we have now carried out a PIT and the outcome is to maintain the exemption and withhold the information from release.

2. All estate, property and land purchased by the Belfast Health and Social Care Trust in the last 10 years.

Two sites were purchased at Glenmona in 2020.

We have rationalised elements of the Trust estate where boundary adjustments were required. This has resulted in a number of small land acquisitions, which are already reflected within existing asset records and are therefore not held separately.
