The Dementia Guide

Could I get a copy of a book from you, it's The Dementia Guide. I got this book and some other leaflets when my mum was diagnosed with Lewy bodies Dementia, after my mum passed away I give the book on to a friend. I am now a Carer in the community and would love to have a copy of the book for reference.

I believe this individual may be referring to the Dementia Guide, which is produced by the Alzheimer's Society. MHSOP do not have a rolling stock of this from the Alzheimer's Society.

They could obtain this guide by contacting the Alzheimer's Society Belfast on 028 9066 4100 (Monday-Friday, 9am-5pm) or via email at nir@alzheimers.org.uk

In terms of this FOI, I would additionally suggest that the individual could access our online dementia leaflets via <https://belfasttrust.hscni.net/service/dementia-services/dementia-resources/> This would be useful as they indicate they are a carer and we have a Carer Resource Manual on there in addition to approximately 50 other dementia related information resources.

Finally, if they wanted to contact our Community Mental Health Team Older People Service via 02895040346, they could provide additional hard copies on a range of leaflets that they stock, which might be beneficial to their role, including the Seniors Booklet.

We will also be launching a Dementia Information and Support Services booklet in May around Dementia Action week at City Hall. This will be available in June via Community Mental Health Team Older People Service.
