Scoliosis Surgery

Trough freedom of information I would to ask how many patients have been refered from musgrave park hospital Orthopetics & Neurosurgery at Royal victoria hospital to the Walton centre in Liverpool & Sport clinic in Dublin for surgery , Since December 21 untill present day.

Has Orthopaedic surgeons at Musgrave park stopped performing Scoliosis Surgery and if so when from.

I would like this information in the time-frame allowed for F.O.I requests.

Orthopaedic Surgery have not referred any patients to Walton Centre in Liverpool or Sports Surgery Clinic in Dublin for scoliosis surgery from December 2021 to date Scoliosis surgery is not performed on Musgrave Park Hospital (MPH) site as within the Belfast Health & Social Care Trust (BHSCT) this surgery is performed in the Royal Belfast Hospital for Sick Children (RBHSC) or Royal Victoria Hospital (RVH) sites dependent on patient age.

Since December 2021, 116 patients have been sent via Waiting List Initiative for Scoliosis surgery to Alder Hey (20 patients) and Royal National Orthopaedic Hospital Stanmore (96 patients).
