## Multiple Myeloma Patients

**Over the past 6 months, how many adult multiple myeloma [MM] patients have you treated? If you refer your multiple myeloma patients to another centre, please state which.**

The Belfast HSC Trust can confirm that Adult Multiple Myeloma patients are treated on the Belfast City Hospital site, we do not refer to any other centre. Validated Clinical Coding for this cohort at present is only available up to 31/10/2025 so unfortunately we are unable to provide data for the previous 6months (October 2025 – March 2026.) We can however confirm the number of patients treated in the 6 months before that, from 01/05/2025 – 31/10/2025, 124 patients were treated in Belfast Trust.
