**Title of paper (Maximum of 300 characters)**

Trust System Oversight Measures Report - March 2026 including areas of escalation under the Support and Intervention Framework (SIAF).

**Background (Maximum of 1500 characters)**

The System Oversight Measures (SOMs) Report is attached for information & assurance.

The Report to the Trust Board provides a summary of the Trust performance against key SOMs targets to end of March 2026. The Report also includes data related to patient experience and a summary of those areas which have been escalated by the Trust at Levels 1-5 under the Department of Health's Support and Intervention Framework (SIAF).

The SDP has now been replaced by the Strategic Outcomes Framework (SOF) which sets out the long-term direction to the system and the System Oversight Measures (SOMs) which convey the shorter-term priorities.

It was envisaged that monitoring and reporting of the SOF/SOMs would be effective from 1 April 2025. However, most reports for the SOMs built regionally on encompass became available on the 7th July 2025, with others still in development for reporting.

As there are no agreed baselines for levels of activity to be delivered within the SOMs framework, an activity summary for outpatient attendances, Elective admissions and daycases, AHP and diagnostics services is now included comparing to same month previous year.
