Maintenance of the Oxygen Generators

- 1. The names of medical gas companies who provided competent persons for the maintenance of the oxygen generators**

C A Services
NovoGen Engineering Solutions Limited
Horizon Engineering Solutions Limited

- 2. Copies of mandatory low hazard permit to work documents for maintenance on these generators**

There are no records of mandatory low hazard permit to work documents for maintenance on these generators. The Trust does not hold permit-to-work records for the maintenance identified. The equipment in question was not treated as forming part of an operational medical gas pipeline system at the time of that maintenance.
