OPCS and ICD-10 Code

Would it be possible to request data on OPCS and ICD-10 code cases at hospital level for the fiscal years 2023/2024 and 2024/2025?

06/07/2026 CLARIFICATION RECEIVED

We are requesting a view of the finished consultant episodes (FCE) per code at the hospital level within Belfast region. This would include inpatient, day case and outpatient data (if available). Also to share the Primary and "All" (or Primary and Secondary) if both are available.

Please refer to the attached pdf document with figures for Primary Diagnosis and Primary Procedure codes for FY 2023/24 & 2024/25 relating to inpatients & day cases. To account for patient transfers between sites within Belfast Trust, an overall Trust-level position has been provided to ensure patients are not counted more than once.

Some figures have been withheld and replaced with less than five (<5). This is because disclosure of small numbers has the potential to identify individuals. The information is therefore exempt under Section 40(2) of the Freedom of Information Act 2000 - Personal Information relating to a third party. Its release would contravene the data protection principles set out in the UK GDPR.
