## **Gestational Diabetes Mellitus (GDM) and Diabetes Types 1 and 2**

For the last year, where you have a full year's data, please can you tell me the following for hospitals that fall under your jurisdiction:

- 1. How many Maternity patients were treated for Gestational Diabetes Mellitus (GDM) in the 12-month period?**

In 2025, 655 women were treated for GDM in Belfast Health and Social Care Trust.

- 2. Do you have a digital product to support the treatment of patients with GDM?**

Adult Diabetes Service – Glooko.

- 3. If you have a digital product, can you supply the total contract value and duration?**

No payment required.

- 4. How many type 1 diabetes patients (all adults and paediatrics) do you care for in your hospitals?**

Adult Service – Belfast Health and Social Care Trust does not hold this information in a recorded format and therefore is unable to provide the requested figures.

Maternity Hospital - 63 paediatric cases (paediatric is 0 to 15 years old on admission).

- 5. How many type 2 diabetes patients (all adults and paediatrics) specifically on insulin do you care for in your hospitals?**

Adult Diabetes Service – Belfast Health and Social Care Trust does not hold this information in a recorded format and therefore is unable to provide the requested figures.

### Paediatric Service

0 cases (paediatric patients are aged 0–15 years on admission).
