Weight Management Medication

- 1. Does the Trust currently provide, commission or oversee any NHS service through which weight management medication (including, but not limited to, semaglutide (Wegovy) and tirzepatide (Mounjaro)) is prescribed for the treatment of obesity?**

If yes, please provide:

- a. the number of patients currently receiving each medication for the treatment of obesity;**
- b. the number of patients currently waiting to access the service through which these medications are prescribed;**
- c. the median and longest waiting time for access to that service.**

In accordance with Section 1(1)(a) of the Freedom of Information Act 2000, I can confirm that Belfast Trust does not hold the information requested at Questions 1(a)–(c).

- 2. If the Trust does not currently provide such a service, please confirm whether there are any plans to introduce one and, if held, the anticipated implementation date.**

Belfast Trust does not currently provide, commission or oversee a service that prescribes weight management medication for the treatment of obesity.

There are currently no plans to establish a dedicated obesity service.
