Endometriosis and Adenomyosis Provider Information

1. Copies of any local service reviews, audits, needs assessments, gap analyses or evaluation reports relating to endometriosis or adenomyosis completed during the last five years.

See response to FOI 37517, Qu 11.

Follow the link for FOI 37517

[Disclosure logs | Belfast Health & Social Care Trust website](#)

2. Copies of any local documents, reports, minutes, audits or analyses identifying factors contributing to delays or barriers in the diagnosis of endometriosis or adenomyosis.

See response to FOI 37517, Qu 13.

3. Copies of current referral templates, referral guidance, triage criteria or referral audits used for suspected endometriosis.

See response to FOI 37517, Qu 15.

4. Copies or names of standardised symptom-assessment tools, questionnaires or patient-reported outcome measures used for suspected or diagnosed endometriosis or adenomyosis.

See response to FOI 37517, Qu 16.

5. Copies of current patient information forms, questionnaires, checklists or guidance setting out information routinely requested before the first specialist appointment for suspected endometriosis.

See response to FOI 37517, Qu 17.

6. A brief description of the current specialist endometriosis service, including its multidisciplinary model, referral criteria and current accreditation status, where recorded.
