I would also like the number of unique patients treated by brand over the period, if available.

Use of <5 (less than five): We are unable to provide an exact figure - exempt from release under Section 40(2) of the Freedom of Information Act - Personal Information relating to a third party, as the small numbers involved could make patients personally identifiable.

Disclosure of this information would contravene the principles of the UK General Data Protection Regulation and the Data Protection Act 2018.
