

04 September 2026

Gynae-oncology Visiting Clinician Training Attachment 12 to 18 months (2015-2017)

1. Does the Trust award certificates of completion for 12 to 18 month training as an attachment in any subspecialty?

Clarification received - Sub-specialty is gynae-oncology

2. Are any such opportunities considered a fellowship?
3. If such a certificate is ever awarded, what information is included on it?
 - a. Please provide a specimen if possible.
4. Is a particular form (form code) used for such certificates.

The attached extract should provide clarification. The Attachment (training) concerns a visiting clinician:

10/09/15

Thank you for sending me your CV and request to spend time training in Belfast. I have looked at your CV and feel that you would be ideal to be a trainee in Gynaecological Oncology.

I have discussed the possibility of an attachment at our unit with managers and they are receptive to this provided your post is funded.

We would be delighted to welcome you to Belfast City Hospital for 12-18 months training during which time we would expect you to undertake gynaecological oncology training and participate in Registrar on call commitment covering gynaecological oncology. During your time at Belfast City Hospital we would expect you to complete attachments in Medical Oncology, Radiation Oncology, Pathology and associated medical/surgical specialities (eg colorectal surgery, urology, plastics etc).

We are keen that you should start as soon as possible as our current sub-specialty trainee is in a period of research and would welcome the opportunity to discuss this with you further.

Kind regards.

The information requested in Questions 1-4 is exempt from disclosure under Section 21 of the Freedom of Information Act 2000, as it is already reasonably accessible to you. This information is available within the Belfast Trust's response to FOI reference 36029. Please refer to the response published in the Belfast Trust Disclosure Log at the link below:
