

Clifton Nursing Home

We understand this is a very difficult and upsetting time for residents and their families and for that, we are deeply sorry. We want to assure families that the care being provided in Clifton Nursing Home is safe today.

Up to 70 residents, who were facing the upheaval of having to move facilities, may now stay at Clifton if they wish. Inspections by the RQIA, found failings around governance, management and leadership including serious issues which were affecting the robustness of infection prevention.

Following discussions, an agreement has been reached with Healthcare Ireland to take over the running of Clifton Nursing Home, with the full involvement of their families to inform ongoing care.
